

Select Edition Certified Pre-Owned Inspection Report

The Select Edition Certification Inspection

The Jaguar Select Edition Certification process was designed to ensure that all Select Edition Pre-Owned Jaguars meet the high level of cosmetic appearance and mechanical operation expected by Jaguar customers. Jaguar has developed this detailed set of certification inspection standards to assist dealer technicians in performing the inspection.

Each pre-owned Jaguar must be evaluated using the Select Edition 140-point mechanical and cosmetic inspection form, before it can be enrolled in the program. When complete, a signed certification checklist must be retained in the vehicle's service file for at least two years, with copies of resulting repair orders attached.

Jaguar retailers are required to include a clean CarFax Vehicle History Report in the customer delivery portfolio with the delivery of every Jaguar Select Edition vehicle. Retailers are also required to keep a copy of the CarFax Vehicle History report in the customer's deal jacket for at least two years.

The CarFax Vehicle History report should be reviewed prior to beginning the inspection process to identify stoppers. The report includes Accident Check (frame damage), Mileage Accuracy Check (TMU), Lemon Check (reacquired vehicle).

Eligible Criteria

- Must be built for sale in the U.S.
- Must be less than five model years old from its first retail sale
- Must have been driven less than 60,000 miles

Original sale date is the date of sale or in-use date, as reported to Jaguar Cars. Demonstrator or company vehicle in-service date may also apply.

Ineligible Criteria (partial list)

- New or previously untitled
- MSO - current model year
- Any vehicle identified as frame damaged
- Any vehicle in service more than five years or 60,000 miles
- Reacquired vehicles
- Any vehicle that has had its warranty coverage removed due to fire, flood, accident damage, etc

A complete list of ineligible criteria is available from the Jaguar Select Edition Sales & Service Managers Operating Guide.

Approval for Certification

Yes No

140-point Inspection

Preliminary	OK	ACTION REQ'D	NOT APPL.
01 Recalls and campaigns performed			
02 Next scheduled service performed if within 2,500 miles, or 3 months of next needed service			
03 Clean CARFAX history report			
General			
04 Owner's Manual & Passport to Service			
05 All vehicle keys and transmitters			
Vehicle Exterior			
06 Correct VIN plate and anti-theft labels			
07 Exterior lamp condition			
08 Inspect the body and paint			
09 Convertible top condition			
10 Windshield condition			
11 Wipers/condition of mechanism/blades			
12 Doors open/close properly			
13 Fuel cap/door working properly			
14 Fuel-filler aperture drain (clean)			
15 Side/rear windows condition			
16 Bumper/fascia condition			
17 Grill/trim/molding condition			
Luggage Area			
18 Tool kit present			
19 Spare tire size, condition and pressure			
20 Manual fuel lid release operation			
21 CD magazine is present (if fitted)			
22 Trim/carpet condition			
23 Convertible top cover			
24 Trunk lid closes properly			

Engine Area	OK	ACTION REQ'D	NOT APPL.
25 Hood releases/locks properly			
26 Automatic/manual transmission system condition and fluid level			
27 Transfer case operation and fluid level			
28 Engine oil level and condition			
29 Power steering pump/hoses condition/leaks/fluid level			
30 Fluid level and condition			
31 Cooling system fluid level and protection level (recovery tank level)			
32 Cooling system leaks/pressure test			
33 Cooling fan/fan clutch/motor-condition/operation			
34 Brake/clutch fluid level and condition			
35 Washer fluid level			
36 Fluid leaks			
37 Air filter condition			
38 Wires			
39 Vacuum hoses security/condition			
40 Engine vacuum within specification			
41 Engine compression within specification			
42 Emissions (meets state/local requirements)			
43 Listen for any abnormal noises/engine running			
44 Fuel pump noise/external fuel pump leakage			
45 Fuel lines/hoses/pressure (leaks/record reading)			
46 Drive belts condition			
47 Coolant hoses			
48 Brakes/clutch master cylinder and booster			
49 Clutch operation/engagement			

Please indicate any damage on picture:
